

MEMBERSHIP SURVEY

The Local 1000 Council, the union’s governing board, has approved a plan to raise dues to fund programs recommended by the Committee for a 21st Century Union. **The committee’s full report and other information about the dues increase plan is available from our website: www.cseunited.org**

CSEUnited is leading the effort to fully involve our members in this process. Our statewide officers have resisted efforts to submit this issue to the membership for an advisory vote. Accordingly, we are conducting our own survey of members to get a more representative response to this very important issue. After you’ve had a chance to read the committee’s report and other information from our website, please provide a response to the question below:

“Do you support the proposal to raise the dues to fund the programs provided in the “21st Century Committee Report?”
